CUSTOMISED 3D IMPLANT

 **AMTECH**<sup>TM</sup>  
MEDIDEVICES

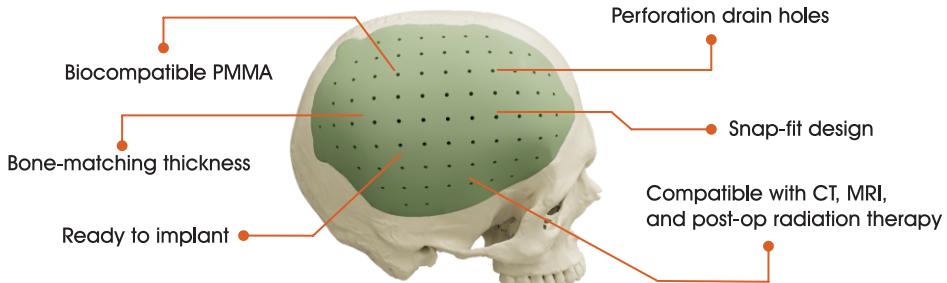

## Innovative Technology For Life-Changing Results

AMTECH MEDIDEVICES PVT. LTD. presents 3D patient-specific implants for cranioplasty, designed to restore skull integrity and enhance recovery for patients with traumatic brain injuries, congenital defects, or post-surgical cranial restoration.

- Custom 3D-printed implants tailored specifically to each patient's unique anatomy
- Ensures a perfect fit
- Greater functional restoration
- Improved aesthetic outcomes
- Crafted from advanced materials such as PEEK (Polyetheretherketone), Titanium and PMMA
- Ideal for durability, biocompatibility, and long-term stability
